Progressive Multifocal Leukoencephalopathy (PML)

Disease of the white matter of the brain, caused by a virus infection (polyomavirus JC) that targets cells that make myelin—the material that insulates nerve cells

Americans with Disabilities Act

July 26, 1991

The Americans with Disabilities Act (ADA) is a federal civil rights law that prohibits discrimination against people with disabilities in everyday activities. The ADA prohibits discrimination on the basis of disability just as other civil rights laws prohibit discrimination on the basis of race, color, sex, national origin, age, and religion. The ADA guarantees that people with disabilities have the same opportunities as everyone else to enjoy employment opportunities, purchase goods and services, and participate in state and local government programs.

The Failure of the ADA

Limited Impact on Employment

Disparities Remain

Undue Burden on Employers

Ambiguity in "Reasonable Accommodation"

Lack of Specificity

Boston Arm - Norbert Wiener (1961)
